<p>A fee may be charged, when permitted by law, for each transaction presented for payment when your ledger balance is less than the amount we need to pay your item. Items that are returned unpaid may be re-presented for payment multiple times, which could result in you being charged multiple fees. The NSF Fee is based on the total number of NSF items paid or returned in the most recent 12 months. The continuous negative balance fee applies beginning on the 5th consecutive business day overdrawn.</p>
